How to apply

- Since signups are limited to teenagers looking to grow their blog, to join you will have to apply first, and only if the application is accepted will the person be able to join.
- Applicants will be assessed not by their follower count, but if the content is appropriate enough.
- There will also be a set of rules and guidelines to follow, and if they are broken then the member may be revoked of their permission to the group.
- The Application form is on our website

Usage

One can use the space to post their own blogs and ask for feedback, connect with another blogger to collaborate, and also join an event such as a joint giveaway.

One can also post their own story or purpose of their blog, or ask for help if they are in a certain situation where they may need assistance in a site-related matter.

Claiming your free video

- All blogs need a good medium to share their story, or their purpose, so we are here to do that for you!
- If you are a member to the YBU, you can fill in the form with appropriate details and content, and we will make a video for you, to display and embed on your site!
- If a video isn't compatible, we can create an equally good PDF for you.
- We will also promote your own blog as much as we can, and expect every member of the group to do the same.

I personally have struggled finding blogs run by people my age to collaborate with in the past, but I am certain there are many such people out there. Something this specific, for young content creators is a niche idea and will find success as there won't be many other sites like these. To put it this way, I am trying to create a solution to a problem that I struggled with, and hope to solve this dilemma for not just me, but the many young, talented content creators out there as well.
